

SOLENOID VALVE SUPPLEMENT ELECTRIC/AIR SHIFT SYSTEM

POWER-MISER KIT NO. 48M81251

Solenoid No. 35M2X749 Replaces Solenoid No. 35M00310 and 35M062E1.

POWER-MISER VALVE PORTING DIAGRAM

Note: Exhaust port requires Breather Part No. 44M30137 to be installed for added protection.

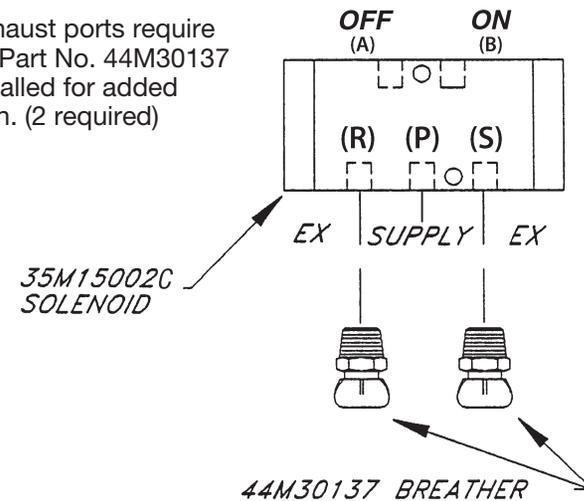

Note: This supplement to be used in conjunction with the original installation instructions. The new solenoid valve being used along with the addition of a breather in the exhaust port(s) is for added protection against contamination.

POWR-PRO KIT NO. 48M81252

Solenoid No. 35M15002C Replaces Solenoid No. 35M00410.

POWR-PRO VALVE PORTING DIAGRAM

Note: Exhaust ports require Breather Part No. 44M30137 to be installed for added protection. (2 required)

Slightly different fittings may be required to hookup air lines when solenoid is used as a field replacement.
