

# POWER TAKE-OFF OFFERINGS FOR EATON ENDURANT 12-SPEED AND PACCAR TX12 TRANSMISSIONS

## TG SERIES

World's most versatile PTO

## 82 SERIES

Built for heavy-duty applications

## SH SERIES

Designed for high-torque applications

**Three PTOs** designed  
for versatility, high torque, and  
heavy-duty applications

Muncie Power Products offers a wide breadth of power take-offs featuring various bolt, shift, mounting, and application-specific options to meet your product needs.

## 8-BOLT MECHANICAL AIR SHIFT

The PTOs on the Eaton Endurant 12-speed and PACCAR TX12 are mechanical air shifted PTOs.

### TG SERIES

- Versatile PTO with 7 speed ratios for the Eaton Endurant and PACCAR transmissions  
Model Code ordering number: TG8F-E80\*\*-P1\*\*
- Lightweight, reduced noise, and superior heat dissipation

### SPECIFICATIONS

<b>MAX TORQUE</b>	
INTERMITTENT:	285 lbs.ft. (386 Nm)
CONTINUOUS:	200 lbs.ft. (270 Nm)
<b>MAX HP (@ 1,000 RPM)</b>	
INTERMITTENT:	54 HP (40 kW)
CONTINUOUS:	38 HP (28 kW)
<b>APPROX. WEIGHT</b>	22 lbs. (10.0 Kg.)

### SH SERIES\*

- Integral air shift PTO
- 3 speed ratios for the Eaton Endurant and PACCAR transmissions  
Model Code ordering number: SH8F-E80\*\*-P1\*\*

<b>MAX TORQUE</b>	
INTERMITTENT:	400 lbs.ft. (542 Nm)
CONTINUOUS:	280 lbs.ft. (397 Nm)
<b>MAX HP (@ 1,000 RPM)</b>	
INTERMITTENT:	76 HP (57 kW)
CONTINUOUS:	53 HP (40 kW)
<b>APPROX. WEIGHT</b>	35 lbs. (15.9 Kg.)

\* Call for availability.

### 82 SERIES

- Cast iron housing with air shift only option
- Designed for use with high-torque mechanical equipment
- 6 speed ratios for the Eaton Endurant and PACCAR transmissions  
Model Code ordering number: 828F-E80\*\*-T\*\*\*

<b>MAX TORQUE</b>	
INTERMITTENT:	500 lbs.ft. (678 Nm)
CONTINUOUS:	350 lbs.ft. (475 Nm)
<b>MAX HP (@ 1,000 RPM)</b>	
INTERMITTENT:	95 HP (71 kW)
CONTINUOUS:	67 HP (50 kW)
<b>APPROX. WEIGHT</b>	85 lbs. (38.6 Kg.)
