

CONTROL SOLUTION

Omni-System® Plus

The Omni-System Plus is a high-level technology solution for snow and ice control systems that increases reliability and revolutionizes the way in which your fleet is operated and maintained. This system includes integrated CAN-BUS technology to minimize wires and improve reliability. With features like remote diagnostic support via Wi-Fi, flow sharing, cartridge valve technology, multi-camera functionality, video playback, and enhanced data-logging, we're changing the game—big time.

HYDRAULIC PRESSURE SETTINGS

FUNCTION	DESIGNATION	DEFAULT (PSI)	RANGE (PSI)	ADJUSTED
Main Relief	TS3	2,200	1,500-3,000	Electronic
Clipper Relief	RV2	1,600	300-3,500	Mechanical
Boost	RV1	200	0-500	Mechanical
Spreader	RV3	1,600	300-3,500	Mechanical
Plow Up	RV5	2,000	300-3,500	Mechanical
Plow Down	TS2	600	0-1000	Electronic
Hoist Up	RV4	2,500	300-3,500	Mechanical
Hoist Down	TS1	600	0-1000	Electronic

FUNCTION	MAX FLOW* (GPM)	DIFFERENTIAL* (PSI)
Inlet Flow	50	200
Plow Up	15	200
Plow Down	23	200
Plow Angle	23	200
Hoist Up	32	200
Hoist Down	32	200
Spinner	15	200
Auger	15	200

* Flows and pressures may vary depending on exact system configurations

CUSTOM SOLUTIONS

New configurations for behind the cab systems. Same trusted technology in a vertical orientation to save space on the trucks in your fleet.

ALL-IN-ONE CONSOLES

New console configuration combines all the functionality of your dash controls and the joystick functions.

VIDEO PLAYBACK CAPABILITIES

SYSTEM SETUP

Preloaded training videos guide personnel on how to setup and calibrate the Omni-System Plus

VIDEO PLAYBACK

Shorten the learning curve for new operators with preloaded onboarding videos in the controller to be viewed in cab

AIR & ROAD TEMP SENSOR

Provides operators with current and accurate data to make application decisions

INTUITIVE CONTROL SETUP

Turnkey ready system is easier to setup and operate

KEY FEATURES

INTERNAL GPS ANTENNA

Prevents operators from disconnecting GPS tracking

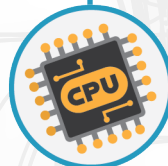

DRIVE-BY DOWNLOAD CAPABILITY

Integrated with Wi-Fi connectivity

REMOTE DIAGNOSTICS

Remotely connect to Muncie Power for setup and diagnostic assistance

NEW CONTROL PANEL

New rigid construction
better protects electrical hardware

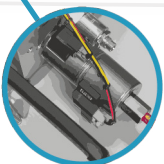

EXPANDED CAPABILITIES

Improved operator performance
and processing capability

LARGER 7" TOUCHSCREEN

Vivid, easy-to-read
capacitive touchscreen

CARTRIDGE VALVE DESIGN

Premium solution for hydraulic circuits: reduces internal hose connections for simpler install, easier to service, and includes flow sharing to keep all functions operating

INNOVATIVE CAMERA CAPABILITIES

SAFETY

Operator has clear line of sight of obstacles, including people that may be standing nearby

MATERIAL CONSERVATION

Easily view the spread pattern & better utilize granular materials being output from the system

EQUIPMENT CONSOLIDATION

Reduce installation time and wiring complexity by utilizing one display for both spreader control and camera viewing

CAMERA WASH

Cameras are compatible with various camera wash systems

DIGITAL VIDEO RECORDING (DVR)

Record up to 2 channels simultaneously and export files onto a USB drive or 32 GB SD card

JOYSTICK CONTROL OPTIONS

Multiple joystick configurations available for optimum cylinder control

CONNECT, VIEW, AND RECORD:

4 CAMERAS TO MONITOR YOUR VEHICLE

BACKUP

Operators have increased safety by enabling them to view what's behind the truck with ease.

HOPPER

Easily monitor the salt level by orienting a camera toward the hopper. This means less time guessing how much salt the operator has remaining and more time on the road.

SPREADER

Operators can clearly see their spread pattern, allowing them to not overspread material onto the road.

WING

Effortlessly view the side of the truck where the wing plow will be deployed to ensure safety.

(more features listed on inside panel)

MEETING THE NEEDS

Muncie Power Products has developed industry leading hydraulic and control solutions for a variety of snow and ice applications. The Omni-System® Plus works on the applications below:

Class 5 to Class 8 Chassis	✓
Data Logging	✓
Wing / Scraper Plows	✓
Hoists (Telescopic / Rod)	✓
Front Plow Options	✓
Pre-Wet (Electric / Hydraulic)	✓
Side Dump	✓
Tow Plows	✓
Tarp Cover	✓
Plow Power Float	✓
Swap Loader / Hooklift-Type Systems / Winches	✓
Multiple Body Applications	✓
Directional Spinner Systems	✓
Anti-Ice	✓
Precision Placement / Directional Cast System	✓
Broom Circuits	✓
Precision Placement / Directional Cast System	✓
Tailgate / V-Body / Muni-Body Spreader Systems	✓
