E/S SERIES DUMP PUMPS

E/S SERIES DUMP PUMPS

Muncie Power Products' dump pumps are designed to meet the needs of various dump applications. With both direct and remote mount options and availability for single, tandem and tri-axle dumps, Muncie Power's E/S pumps have become the industry standard. The E/S pumps are equipped with two or three line plumbing and can be shifted by air, cable or lever. Whether you are looking for a small pump or increased flow rates to power large equipment, we have the right pump suited for your dump applications.

E SERIES DUMP PUMPS

The E Series dump pumps are the standard equipment for tandem, tri-axle dumps and dump trailers with high volume cylinders. These dump pumps are available in both direct and remote mount configurations with two or three line plumbing and air, cable or lever shift options.

Weight	67 - 70 lbs
Displacement (Cu. In./Rev)	5.2 - 6.37
Max. Pressure	2,500 PSI

INTERACTIVE PUMP AND WETLINE KIT DESIGNER

Visit our interactive specification tool and find the pump model that best suits your dump application needs. Our pump designer tools allow you to select your pump type and size, in addition to your configuration options, to obtain a model number for easy ordering. If you are looking to build a complete system, use M-Power's wetline kit designer to specify your PTO, reservoir, controls and more.

WETLINE KIT HYDRAULIC SYSTEM

Muncie has been supplying complete systems for end dump applications for five decades. All systems include the dump pump, control console and reservoir. Naturally, Muncie has the right power take-off as well as hoses and fittings to complete the installation.

WE BUILD TRUST.

At Muncie, we understand
that we're building much more
than hydraulic components.

We are building trust.
