Product Bulletin #PB00105

Subject: MC1 Replacement Output Covers

Date: January 18, 2022

URL: www.munciepower.com

Output covers for the MC1 Series power take-off have been discontinued, and are no longer available. Any MC1 Series PTO needing a replacement output cover will need to use the output cover and flange from the A20 Series PTO. These are available as an assembly, and include the cover, output flange, flange mounting hardware, shaft seal, and O-ring. The part numbers for each assembly are shown in the table below. The existing cover to PTO mounting cap screws will be reused.

Output Flange Type	Replacement Flange P/N
SAE "A" 2-Bolt	15TA6359
SAE "B" 2-Bolt	15TA6361
SAE "B" 2- & 4-Bolt	15TA6360
SAE "C" 2- & 4-Bolt	15TA6363
SAE "B" 2-Bolt Wet Spline	15TA6380
SAE "B" 2- & 4-Bolt Wet Spline	15TA6379

Output covers for MC1 Series units with DIN pump mounts, companion flanges, or round keyed shafts are still available.

Instructions on how to correctly install the output cover onto the PTO can be found in IN21-06 – Rebuild Instructions for A20 Series PTO.
