Product Bulletin #PB00140

Subject: CS8 Series for Eaton Endurant HD Now Available

Date: April 1, 2026

URL: www.munciepower.com

Use of the CS8 Series clutch shift power take-off on the Eaton Endurant HD transmission is now approved by Eaton. The E80 gear code has been added to the CS8 Series power take-off and is available for purchase, effective immediately.

The CS8 Series is a clutch-shift 8-bolt PTO featuring an air shifted clutch for on the fly PTO engagement. Initially a single ratio will be available, offering 300 lbs-ft of torque at 126% of engine speed.
